

## Capturing Traveling Plaque from Chapter E at Anderson In., August 14

Jay Fansler got things all set up the route, were we was picking different members up. Jay and Marc meet Mike ,Joyce & Harriet at Dupont Rd then headed south to exit 278 to meet Duane then headed the rest of the way. The six of us got there in good time to visit with other members some we know, some we didn't. Lonnie and Karen of course gave us welcoming hugs and smiles we had a very enjoyable evening with Chapter E.

We rode 124 miles to capture the plaque, had great riding weather there, then as we left around 8:30 the weather was starting to cool down. Mike & Duane both said it had gotten down in the 50's. Joyce had her heated gear cranked to high I heard.

All and all we had a great ride lots of fun a big part of being with other chapters. Thanks for making us welcome.
