Chapter "L" Meetings

2nd SATURDAY of Month
Eat at 5 pm, Info meeting at 6 pm
November we will meet at Newman's

Director's Notes

We had 15 at our Pitch In/meeting at Mike & Susan Waggoner's.

We want to thank Susan for having the Chapter into their home for our meeting.

We talked about Safety when riding or driving because people in general are not paying attention to stops, especially stop lights and signs.

So be really watchful before taking off at lights.

We don't have any rides planned, we asked when anyone wanted to get together in October/November, but no response. We will see you at the November meeting, which will be at our home, 5 pm.

I do want to really thank Susan for having the Chapter in Her and Mike's home. We know it's a lot of extra work and expense, so thank you both Susan and Mike.

Everyone please plan to come to our home Nov. 14, for the next meeting. It will also be a pitch-in supper.

If anyone wants to go on a ride or just out to eat, let us know, we are always ready to go.

And remember, Mary doesn't like to cook. So, I would appreciate any help I can get.

Fun for friends and safety
You are not too old yet!!

Have Fun, Laugh often & Ride Safe.

SAFETY NOTES

POT HOLES, REPAIRING STREETS (RICHMOND IS AWFUL), NO WHERE YOU CAN GO WITHOUT TORN UP STREETS, BE EXTRA CAREFUL WHILE RIDING OUR STREETS AND ROADS.

I Just heard today they are starting up Chester Blvd. It is only going to get worse.

NOT ONLY IN OUR COUNTY, BUT IT IS ALL OVER.

Also watch for the School Buses.

Fall is fast approaching, time to start thinking about winterizing your bikes.

TID BITS

AUTOMOBILE PARKING SELF-DEFENSE

To avoid a parking-lot fender-bender

*Park next to four-door cars. Their doors are shorter than those on two door models, so riders are less likely to hit adjacent vehicles when opening their doors.

*Park between compact cars. The smaller the cars, the bigger the space between them.

*Park next to a new vehicle. New car owners are usually much more careful.

*Avoid parking next to extremely dented or rusted cars. These car owners are not concerned with the appearance of their cars--or yours.

*Don't park behind a truck or van. They have limited rear view.

*Don't park at the unprotected end of a row. Poor visibility at parking lot intersections lead to numerous accidents.

*Park squarely in the middle of your space...and parallel to the lines. That puts your vehicle as far as possible from others.

*Avoid parking near poles. That way you won't back into or turn into a pole you forgot was there.

*Don't pull through empty facing spaces if they are angled. Such lots are usually designed with one-way driving lanes. If you pull through, you'll be heading in the wrong direction when you leave.

These tid bits can be used for cars or motorcycles.

Coming Events

Oct.16-Ladies Lunch-11:30-Little Sheba's

Nov.14-Chapter Meeting-We are meeting at Newman's House/pitch-in 5-eat & 6-meet

Nov. 20-Ladie's Lunch-Little Shebas-11:30

RIDE NOTICE

There were no rides scheduled for the rest of October or November. If anyone wants to go on a ride, let me know, and I will contact others. Mary

Want to lose weight-Eat Dessert

Have dessert with breakfast when dieting. Recent finding: Overweight people who ate dessert in the morning had fewer cravings later in the day and were more likely to stick to their diets.

Try to have a small dessert, such as two ounces of dark chocolate, as part of a 600-calorie breakfast.

Bobbie Brown won the Guess Game at the October meeting and she will bring the game next month.

There were 15 members at the October 10th Chapter meeting/Pitch-in at Waggoners.
